

Web Table 6: Studies of satisfactory quality included in the systematic review of nutritional quality of organic foods

1. Amodio, M.L., Colelli, G., Hasey, J. K., Kader, A. A., *A comparative study of composition and postharvest performance of organically and conventionally grown kiwifruits*. Journal of the Science of Food and Agriculture, 2007. **87**(7): p. 1228-1236.
2. Anttonen, M.J., Karjalainen, R. O., *High-performance liquid chromatography analysis of black currant (*Ribes nigrum* L.) fruit phenolics grown either conventionally or organically*. Journal of Agricultural and Food Chemistry, 2006. **54**(20): p. 7530-7538.
3. Asami, D.K., Hong, Y. J., Barrett, D. M., Mitchell, A. E., *Comparison of the total phenolic and ascorbic acid content of freeze-dried and air-dried marionberry, strawberry, and corn grown using conventional, organic, and sustainable agricultural practices*. Journal of Agricultural and Food Chemistry, 2003. **51**(5): p. 1237-1241.
4. Barrett, D.M., Weakley, C., Diaz, J. V., Watnik, M., *Qualitative and nutritional differences in processing tomatoes grown under commercial organic and conventional production systems*. Journal of Food Science, 2007. **72**(9): p. C441-C451.
5. Bicanová, E., Capouchová, I., Krejčicová, L., Petr, J., Erhartová, D., *The effect of growth structure on organic winter wheat quality*. Žemdirbystė, Mokslo Darbai, 2006. **93**(4): p. 297-305.
6. Borguini, R.G., Silva, M. V. da, *Physical-chemical and seasonal characteristics of organic tomato in comparison to the conventional tomato*. Alimentos e Nutricao, 2005. **16**(4): p. 355-361.
7. Borguini, R.G., Silva, M. V. da, *Nutrient contents of tomatoes from organic and conventional cultivation*. Alimentos e Nutricao, 2007. **21**(149): p. 41-46.
8. Briviba, K., Stracke, B. A., Rüfer, C. E., Watzl, B., Weibel, F. P., Bub, A., *Effect of consumption of organically and conventionally produced apples on antioxidant activity and DNA damage in humans*. Journal of Agricultural and Food Chemistry, 2007. **55**(19): p. 7716-7721.
9. Carbonaro, M., Mattera, M., *Polyphenoloxidase activity and polyphenol levels in organically and conventionally grown peach (*Prunus persica* L., cv. Regina bianca) and pear (*Pyrus communis* L., cv. Williams)*. Food Chemistry, 2001. **72**(4): p. 419-424.
10. Carbonaro, M., Mattera, M., Nicoli, S., Bergamo, P., Cappelloni, M., *Modulation of antioxidant compounds in organic vs conventional fruit (peach, *Prunus persica* L., and pear, *Pyrus communis* L.)*. Journal of Agricultural and Food Chemistry, 2002. **50**(19): p. 5458-5462.
11. Castellini, C., Mugnai, C., Dal Bosco, A., *Effect of organic production system on broiler carcass and meat quality*. Meat Science, 2002. **60**(3): p. 219-225.
12. Colla, G., Mitchell, J. P., Joyce, B. A., Huyck, L. M., Wallender, W. W., Temple, S. R., Hsiao, T. C., Poudel, D. D., *Soil physical properties and tomato yield and quality in alternative cropping systems*. Agronomy Journal, 2000. **92**(5): p. 924-932.
13. Colla, G., Mitchell, J. P., Poudel, D. D., Temple, S. R., *Changes of tomato yield and fruit elemental composition in conventional, low input, and organic systems*. Journal of Sustainable Agriculture, 2002. **20**(2): p. 53-67.
14. DeEll, J.R., Prange, R. K., *Postharvest Quality and Sensory Attributes of Organically and Conventionally Grown Apples*. Hortscience, 1992. **27**(10): p. 1096-1099.
15. DeEll, J.R., Prange, R. K., *Postharvest physiological disorders, diseases and mineral concentrations of organically and conventionally grown McIntosh and Cortland apples*. Canadian Journal of Plant Science, 1993. **73**(1): p. 223-230.
16. Dimberg, L.H., Gissen, C., Nilsson, J., *Phenolic compounds in oat grains (*Avena sativa* L.) grown in conventional and organic systems*. Ambio, 2005. **34**(4-5): p. 331-337.

17. Forster, M.P., Rodriguez, E. R., Romero, C. D., *Differential characteristics in the chemical composition of bananas from Tenerife (Canary Islands) and Ecuador*. Journal of Agricultural and Food Chemistry, 2002. **50**(26): p. 7586-7592.
18. Guadagnin, S.G., Rath, S., Reyes, F. G., *Evaluation of the nitrate content in leaf vegetables produced through different agricultural systems*. Food Addit Contam, 2005. **22**(12): p. 1203-8.
19. Gundersen, V., Bechmann, I. E., Behrens, A., Sturup, S., *Comparative investigation of concentrations of major and trace elements in organic and conventional Danish agricultural crops. 1. Onions (*Allium cepa* Hysam) and peas (*Pisum sativum* Ping Pong)*. Journal of Agricultural and Food Chemistry, 2000. **48**(12): p. 6094-6102.
20. Hajslova, J., Schulzova, V., Slanina, P., Janne, K., Hellenas, K. E., Andersson, C., *Quality of organically and conventionally grown potatoes: four-year study of micronutrients, metals, secondary metabolites, enzymic browning and organoleptic properties*. Food Addit Contam, 2005. **22**(6): p. 514-34.
21. Hamouz, K., Lachman, J., Pivec, V., Dvořák, P., *The effect of ecological growing on the potatoes yield and quality*. Plant Soil Environ, 2005. **51**(9): p. 397-402.
22. Hanell, U., L-Baekström, G., Svensson, G., *Quality studies on wheat grown in different cropping systems: a holistic perspective*. Acta Agriculturae Scandinavica. Section B, Soil and Plant Science, 2004. **54**(4): p. 254-263.
23. Hansen, L.L., Claudi-Magnussen, C., Jensen, S. K., Andersen, H. J., *Effect of organic pig production systems on performance and meat quality*. Meat Science, 2006. **74**(4): p. 605-615.
24. Keukeleire, J.d., Janssens, I., Heyerick, A., Ghekiere, G., Cambie, J., Roldán-Ruiz, I., Bockstaele, E. van, Keukeleire, D. de, *Relevance of organic farming and effect of climatological conditions on the formation of α -acids, β -acids, desmethylxanthohumol, and xanthohumol in hop (*Humulus lupulus* L.)*. Journal of Agricultural and Food Chemistry, 2007. **55**(1): p. 61-66.
25. Krejčířová, L., Capouchová, I., Petr., J, Bicanová., E., Faměr, *The effect of organic and conventional growing systems on quality and storage protein composition of winter wheat*. Plant Soil Environ, 2007. **53**(11): p. 499-505.
26. L-Baekström, G., Hanell, U., Svensson, G., *Baking quality of winter wheat grown in different cultivating systems, 1992-2001: a holistic approach*. Journal of Sustainable Agriculture, 2004. **24**(1): p. 53-79.
27. L-Baekström, G., Hanell, U., Svensson, G., *Nitrogen use efficiency in an 11-year study of conventional and organic wheat cultivation*. Communications in Soil Science and Plant Analysis, 2006. **37**(3/4): p. 417-449.
28. Lester, G.E., Manthey, J. A., Buslig, B. S., *Organic vs conventionally grown Rio Red whole grapefruit and juice: comparison of production inputs, market quality, consumer acceptance, and human health-bioactive compounds*. Journal of Agricultural and Food Chemistry, 2007. **55**(11): p. 4474-4480.
